## Have You Had Your **Financial Health Check?**

### Introducing our **NEW** service

**Illingworth David now brings to you a new service, designed to help you to assess the financial health of your business**

Essentially a health check for your business, our Financial Health Check puts your business under the microscope.

### **Our step-by-step diagnostic process will help you to:**

- Predict the financial impact of business decisions before you proceed
- Identify ways to improve your profitability
- Find the weak spots in your cash flow and recommend solutions
- Legitimately reduce the amount of tax you pay
- Assess the likelihood of success of a finance application before you waste valuable time with a lengthy and costly application process
- Prepare for bank meetings and reviews

### **A Financial Health Check will provide a comprehensive report that:**

- Uncovers the causes of current financial challenges
- Contains future projections and graphical "what if" scenarios
- Details the result of a goal seeking analysis that plots your businesses future direction
- Includes an analysis of the impact of volume and price changes on your business

Clients who have already undergone a Financial Health Check have said:

*"..now we have a much clearer picture of where we are heading.."*

*"..great, now we know what we need to focus on to turn our business around.."*

**To arrange your Financial Health Check contact us on the below details:**
