

# Planning & Forecasting for your Business

*“Wouldn't you like to know the impact of every financial business decision before you make it?”*

## The next level in accounting support

Accounting and business software has been around for decades, but the ability to analyse and evaluate your accounting data is a fast emerging trend that finally allows you to really understand the drivers of your business.

Forecasting and business performance tools take their data straight from your accounting system, reproducing them in a single screen 'financial scorecard' at the click of a button. You can then do all sorts of profit and cash flow forecasting, what if analysis and more, in a fraction of the time possible before.

## Benefits for your business

Most small businesses are just becoming aware of the benefits of a Financial Health Check. This service can also help major Banks to automate their business loan approval process and subsequent loan monitoring.

Come and discover the benefits that this unique financial modelling and forecasting service can offer your business.....

**Monday 19<sup>th</sup> April**

**6pm for a 6:15pm start**

**Alex Popescu Room**

**Skilled Stadium**

## Special Guest Presenter

We have been fortunate enough to obtain the services of forecasting and business performance tools specialist **Mark Holton**. Mark has a great deal of experience using this software and will discuss the great outcomes that clients have obtained from using it. Mark will also instruct us in the features, functions and benefits of this brilliant new offering.
